

**Score Like a Champion**

**Wedge Play Game: Proximity**

**Rules**

Set up the practice area with precisely marked distances, every 10 yards, from 30 to 120 yards.

Play 10 wedge shots at random distances.

Score 1 point for every yard that each ball lands away from the target. So, if you are playing a 72 yard shot, and the ball pitches 3 yards short and right of the pin, you score 3 points for that shot.

Add up and record your total score for 10 wedge shots.

Full pre- and post-shot routine for every shot.

**Be Accountable**

At the end of every round, think carefully about what you have achieved, and the issues you've faced, and write them down in your practice session log.
